

NOT-IP

NEURAL ORGANIZATION TECHNIQUE - INTERNATIONAL PROFESSIONAL

2012 – January

Dear fellow practitioners,

I am writing to you as the president of Neural Organization Technique –International Professional (N.O.T.-IP) with an invitation to participate in the rebirthing and rejuvenation of Neural Organization Technique. There is no membership ~~requirement or~~ fee for the first year. Everyone who receives this letter will become an introductory member. Once you fill out the enclosed application or on-line application you will be updated to a general member with all the privileges of membership.

Membership privileges will include on our website; your contact information in “Find a Local Practitioner”, notification of future seminars, listing of all certified instructors, and most important updated clinical information about Neural Organization Technique on our new website: www.NeuralOrganizationTechnique.org.

Our goal as outlined by the mission statement below will bring forth N.O.T. into the 21st century with new information, updated and simplified steps, a clearer understanding of the core principles and its application. With new electronic media at our disposal, we will be sharing this information with you on the website with videos and downloadable information. The first educational video we have planned will be a new Screening Protocol;

...how to identify psychological reversal, is a vestibulo-ocular reflex deficit present (scoliosis) in the new patient, and screenings to determine what steps are complete or incomplete on follow-up office visits.

Mission Statement

Provide a clinical and academic arena for investigation and substantiation and research of Neural Organisation Technique (N.O.T.)

Our database of past and present practitioners is incomplete. Please complete the application form so we can verify information. If you received this by mail, it means we do not have a correct email address. Additionally, forward this letter to anyone you know who is practicing N.O.T. or has interest in learning.
