

Neural Organization Technique

A 4 day workshop which explores in detail the primary reflex survival systems: feeding, fight/flight, reproduction and immune function. Learn powerful techniques to re-establish these primary functions including the primary gait mechanisms, cranial function, due to head injuries and TMJ dysfunction. These defence systems, when in deficit, are why the body has difficulty in healing itself. The N.O.T. protocols help the client to quickly regain their innate capacity for optimal function.

Module One

- Cranial Injury Complex: Relation to chronic cervical problems & the characteristic reactive muscular chain.
The temporo-mandibular joint: An approach to this joint in relation to the primary functions.
- Universal jaw I: Its relation with hypo-tonicity of muscles below the diaphragm.
- Defensive jaw (Emotional / pain control) / Coccygeal release for Dura./ Fascial defense system
- The Pelvic Injury Complex: A very important step to fix chronic sacro-iliac problems.
- Structural jaw complex / Category II: Connection between S.I. joints, T.M.J. and the skull.
- Category III: Lumbar and disc involvements.
- Idiopathic Scoliosis

This seminar is structured to give you plenty of hands on time, so that you can have the confidence to use in your office immediately.

Registration for Seminars

<u>Seminar Dates:</u>	Module One	April 23 - 26. 2017	28 hours
<u>Venue:</u>	to be announced		
<u>Local Contact:</u>	Cheryn Donaldson	+1-604-929-3219	cheryn97@telus.net
	BODY MIND CONNECTION #6-728 West 14th Street, North Vancouver, B.C. V7M 0A8,		
<u>Registration:</u>	Deposit of \$150.00 CAD by March 10.2017	Early Bird discount \$50	
	to Paypal:	evelyne.rupp@t-online.de	
Module One	\$ 950.00 CAD	Repeaters discount is 50%
